EXAMINER'S AMENDMENT

1. Applicant's election without traverse of Group I in the reply filed on 4/11/2005 is acknowledged.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wayne L. Tang (Reg. No. 36,028) on 4/25/2005.

In claim 1, line 7, "resistor" was deleted.

- 3. The following is an examiner's statement of reasons for the amendment. The change to claim 1 was to correct an antecedent basis error.
- 4. The following is an examiner's statement of reasons for allowance. U.S. Patent 4,690,149 to Ko teaches a method and apparatus for measuring localized impedance changes in brain matter and fluid. (Abstract of Ko). U.S. Pat. No. 4,819,648 to Ko discloses a device for electromagnetically sensing impedance changes in the brain to monitor brain fluid levels. (Abstract of Ko). U.S. Patent 6,512,949 to Combs et al. (Combs) teaches an implantable impedance monitor that measures an indication of lung

water. (Abstract and column 14, lines 10-30 of Combs). U.S. Patent 4,488,559 to Iskander teaches a method and apparatus for the measurement of lung water content (column 3, lines 20-34 of Iskander) that includes an impedance matching circuit. The prior art does not teach or suggest a probe that includes an implantable tissue water content sensor and a computer programmed to display the resonant frequency of the sensor indicative of water content in the brain tissue that are combined or combinable with the other limitations of claims 1 or 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
